Surah An-Nas: SEO Package

For YouTube Shorts, Instagram Reels, TikTok and Snapchat, aimed at a Gulf audience (KSA, UAE, Kuwait, Qatar, Oman, Bahrain). Video length is 61 s and it opens on the Bismillah.

> This package has no live search-volume numbers, because the vidIQ account had 3 credits and a keyword lookup costs 5. The keywords below are the Arabic spellings people actually type, including the common ones without hamza or tashkeel (e.g. سوره الناس، قل اعوذ برب الناس). If you know the reciter's name, put it in the title. "سورة الناس + reciter name" is one of the most-searched forms.

1 Title (pick one)

1	سورة الناس	تلاوة هادئة قبل النوم 🌙	Recommended
2	قل أعوذ برب الناس 🤍 سورة الناس كاملة بصوت خاشع	
3	سورة الناس مكتوبة	حصّن نفسك كل ليلة	
4	Surah An-Nas	Calm Quran Recitation Before Sleep 🌙	

Keep the Arabic keyword first. YouTube Shorts shows about 40 characters of the title, and "سورة الناس" fits in that.

7 When to post (Gulf time)

SLOT	KSA / KUWAIT / QATAR / BAHRAIN (UTC+3)	UAE / OMAN (UTC+4)	INDIA (IST)
Best daily slot, after Isha	**9:30 PM**	**10:30 PM**	**12:00 AM**

Thursday night (weekend starts)	10:00 PM	11:00 PM	12:30 AM
Friday morning	10:00 AM	11:00 AM	12:30 PM

Surah An-Nas is recited before sleep, so the night slot fits it. Post at the same time every day; consistency matters more than the exact minute.

8 Thumbnail / cover

Use `thumbnail_cover.jpg`. It is a real frame from the video with "سورة الناس" and "اقرأها قبل النوم" ("read it before sleep"). Because it comes from the actual footage, it looks real and matches the video.

- YouTube Shorts: in the YouTube app, tap *Edit cover* → *Add from gallery* and pick this image.
- Instagram: *Edit cover* → *Add from camera roll*. Keep the title inside the centre square, because the profile grid crops to 1:1 / 3:4.
- TikTok: *Select cover*, then pick a frame or upload this image.

9 AI thumbnail prompts (if you want a new image)

PROMPT A: SUNSET OVER THE SEA (MATCHES THIS VIDEO), 9:16

Photorealistic vertical 9:16 photograph, golden-hour sunset over a calm Arabian Gulf sea, the low sun touching the horizon beside a hazy coastal skyline with one tall tower, warm orange sky fading to soft blue at the top, gentle ripples catching the sunlight, dark wet rocks in the bottom corner, shot on a full-frame camera, 35mm lens, f/8, natural colours, slight film grain, realistic exposure, no people, no text, empty calm sky in the upper third for a title.

PROMPT B: QURAN AT DUSK, 9:16

Photorealistic vertical 9:16 photograph, a closed Quran with a dark green leather cover resting on a wooden rehal stand beside an open window, soft orange dusk light falling across it, blurred view of a calm sea and sunset sky outside, shallow depth of field, 50mm lens, f/2, natural shadows, quiet and peaceful mood, real photograph, no people, no text.

NEGATIVE PROMPT (USE WITH BOTH)

cartoon, illustration, anime, 3D render, CGI, fantasy, glowing particles, lanterns, neon, oversaturated colours, HDR halo, text, letters, Arabic script, watermark, logo, extra sun, distorted buildings, people, faces

> **Important:** Don't let the AI write the Arabic. Image generators get Arabic letters wrong, and a misspelled Quranic word looks bad and can offend viewers. Generate the image with no text, then add "سورة الناس" yourself in Canva/CapCut using an Arabic font (Amiri, Noto Naskh or Aref Ruqaa), white with a soft shadow. Prompt B also keeps the Quran closed for the same reason: AI page text comes out as gibberish.
